## Determination of Patent Term Adjustment under 35 U.S.C. 154 (b) (application filed on or after May 29, 2000)

The Patent Term Adjustment to date is 644 day(s). If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the Patent Term Adjustment will be 644 day(s).

If a Continued Prosecution Application (CPA) was filed in the above-identified application, the filing date that determines Patent Term Adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) system (<http://pair.uspto.gov>).

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office of Patent Legal Administration at (703) 305-1383. ## Notice of Fee Increase on October 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after October 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on October 1, 2003. See Revision of Patent Fees for Fiscal Year 2004; Final Rule, 68 Fed. Reg. 41532, 41533, 41534 (July 14, 2003).

The current fee schedule is accessible from (<http://www.uspto.gov/main/howtofees.htm>).

If the fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due" but not the correct amount in view of the fee increase, a "Notice of Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice of Pay Balance of Issue Fee," if the response to the Notice of Allowance is to be filed on or after October 1, 2003 (or mailed with a certificate of mailing on or after October 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously-paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Effective October 1, 2003, 37 CFR 1.18 is amended by revising paragraphs (a) through (c) to read as set forth below.

### Section 1.18 Patent post allowance (including issue) fees.

- (a) Issue fee for issuing each original or reissue patent, except a design or plant patent:
- By a small entity (Sec. 1.27(a))..... \$665.00
  - By other than a small entity..... \$1,330.00
- (b) Issue fee for issuing a design patent:
- By a small entity (Sec. 1.27(a))..... \$240.00
  - By other than a small entity..... \$480.00
- (c) Issue fee for issuing a plant patent:
- By a small entity (Sec. 1.27(a))..... \$320.00
  - By other than a small entity..... \$640.00

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-6, drawn to graph generating method of multidimensional data, classified in class 345, subclass 440.
  - II. Claims 7-8, drawn to window pane and drop down box method, classified in class 707, subclass 3.
  - III. Claim 9, drawn to GUI implementation method displaying and analyzing data in a multidimensional dataset, classified in class 345, subclass 848.
  - IV. Claim 10-17, drawn to a method implementation of decision tree analysis and construction, classified in class, 707, subclass 4.
  - V. Claims 18-19, drawn to a method of enabling discovery tree processing, classified in class 715, subclass 504.
  - VI. Claims 20-21, drawn Decision Tree visualization and display, classified in class 345, subclass 419.
  - VII. Class 22, drawn to an interface implementation of a multitudinal database, classified in class 707, subclass 26.

The inventions delineated by claims 1-6, 7-8, 9, 10-17, 18-19, 20-21 and 22 are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant application, the invention

delineated by claims 1-6 has separate utility as a graph generating method. Claims 7-8, have separate utility utilizing a window pane and drop down box method. Claim 9, has separate utility directed to GUI implementation method displaying and analyzing data in a multidimensional dataset. Claims 10-17 have separate utility drawn to a method implementation of decision tree analysis and construction. Claims 18-19 have separate utility drawn to a method of enabling discovery tree processing. Claims 20-21 have separate utility directed to Decision Tree visualization and display. Finally, Class 22 has separate utility drawn to an interface implementation of a multitudinal database. Therefore, the seven inventions are distinct even though they could be usable together. See MPEP 806.05(d). During a telephone interview 9/29/2003, Robert Strozier, Reg. No. 34,024 elected GROUP I without traverse.

### EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Robert W. Strozier, Reg. No. 34,024 on 10/15/2003.

The application has been amended as follows: Mr. Strozier has provided examiner with "Express authorization to withdraw claims 7-22 and applicant reserves the right to file divisional applications".

3. ~~IN THE CLAIMS~~  
Cancel claims 7-22.

***Allowable Subject Matter***

4. The following is an examiner's statement of reasons for allowance for independent claims 1 and 5: none of the prior art explicitly teach or suggest either alone or in any combination computing deviance of data values for each cell of each cross-tab using formula. For example, AGRAWAL et al, US Patent No. 6,094,651 shares similar teaching with that of the instant application, including On-Line Analytical Processing (OLAP), determining values for each cell of the cross-tab, however, does not explicitly teach nor suggest computing a deviance of the data values for each cell of each cross-tab using formula as disclosed in claim 1b (1). Further, two references by GARTUNG et al, classify as related prior art for the following reasons; both inventions, GARTUNG et al, US Patent No. 6,321,241 and GARTUNG et al, US Patent No. 5,915,257 discuss cross-tab modification and analysis utilizing a tree-type data structure analysis. However, they do not explicitly teach or suggest in any combination the formula as claimed. Further, CANNON, US Patent No. 6,286,005 teach manipulation of a data mining engine for multidimensional data analysis, however, as with the prior art, does not explicitly teach or suggest in any combination the deviance formula from the instant application as disclosed. Therefore, the invention meets conditions for allowance.
- Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany

the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
